יום ראשון 18 נובמבר 2018

לכבוד,

לקוחות ממשל זמין

הנדון: עדכון תוכנות אבטחה לתאריך 11 אוקטובר 2018

לידיעתכם,

החודש יצאו עדכוני אבטחה.

On November 13, 2018, Microsoft is planning to release security updates affecting the following Microsoft products.

להלן פירוט העדכונים לחודש זה :

Servicing Notes	Maximum Impact	Maximum Severity	Product Family
Updates for Windows 10 will be cumulative and will include both security fixes and non-security updates. For more information, see https://docs.microsoft.com/windows/deployment. Changes to Office and Windows servicing and support provides additional background.	Remote Code Execution	Critical	**Windows 10 v1809, v1803, v1709, v1703, v1607, Windows 10 for 32-bit Systems, and Windows 10 for x64-based Systems (not including Edge)**
Updates for Microsoft Edge are included in Windows 10 monthly rollups. We separate Edge out in this table to show vulnerability ratings for Edge apart from other Windows 10 components.	Remote Code Execution	Critical	**Microsoft Edge**
Updates for these modern Windows Server products will be cumulative and will include both security fixes and non-security updates. For more information, see https://docs.microsoft.com/windows-server	Remote Code Execution	Critical	**Windows Server 2019, Windows Server 2016, and Server Core installations (2019,**

Servicing Notes	Maximum Impact	Maximum Severity	Product Family
			2016, v1803, and v1709)
Updates for these down-level versions of Windows will be offered via monthly rollups. For each version of Windows, two rollups will be offered: The Security Monthly Quality Update (aka the Monthly Rollup) will contain both security and reliability fixes. The Security Only Quality Update (aka the Security Only update) will contain only security fixes for the month. For more details, see Simplified servicing for Windows 7 and Windows 8.1: the latest improvements and Upgrade Windows Server 2008 and Windows Server 2008 R2.	Remote Code Execution	Critical	Windows 8.1, Windows Server 2012 R2, Windows Server 2012, Windows 7, Windows Server 2008 R2, and Windows Server 2008
The Security Only update for Windows 7, Windows Server 2008 R2, Windows Server 2012, Windows 8.1, and Windows Server 2012 R2 will not include security updates for Internet Explorer. These updates for IE will be offered as a separate package. For more details, see the blog post Simplified servicing for Windows 7 and Windows 8.1: the latest improvements.	Remote Code Execution	Critical	Internet Explorer
For more information about updates for Office, please visit https://docs.microsoft.com/officeupdates and Changes to Office and Windows servicing and support.	Remote Code Execution	Important	Microsoft Office-related software
For more information about updates for SharePoint, please visit https://docs.microsoft.com/officeupdates/sharepoint-updates.	Remote Code Execution	Important	Microsoft SharePoint-related software

Servicing Notes	Maximum Impact	Maximum Severity	Product Family
For more information about updates for Exchange Server, please visit https://docs.microsoft.com/exchange.	Elevation of Privilege	Important	Microsoft Exchange Server
For more information about updates for Skype for Business, please visit https://docs.microsoft.com/skypeforbusiness. For more information about Lync, please visit https://docs.microsoft.com/lync.	Denial of Service	Low	Skype for Business, Microsoft Lync
See https://docs.microsoft.com/dotnet for documentation on .NET Framework, .NET Core, ASP.NET, and ASP.NET core. These products are maintained by Microsoft and the .NET community at https://github.com/topics/dotnet.	Tampering	Moderate	.NET Core
For more information on PowerShell, please visit https://docs.microsoft.com/powershell.	Remote Code Execution	Important	PowerShell Core
ChakraCore is the core part of Chakra, the high-performance JavaScript engine that powers Microsoft Edge and Windows applications written in HTML/CSS/JS. More information is available at https://github.com/Microsoft/ChakraCore/wiki.	Remote Code Execution	Critical	ChakraCore
Updates for Adobe Flash Player will be offered to the following operating systems: Windows 8.1, Windows Server 2012, Windows Server 2012 R2, Windows RT 8.1, Windows 10, and Windows Server 2016.	Remote Code Execution	Important	Adobe Flash Player

יחידת ממשל זמין תחל בביצוע התקנות אבטחת מידע, **7 ימים** מפרסום הודעה זו.

במידה ולא תתקבל תגובה תוך פרק זמן זה, נעדכן את השרתים באופן עצמאי.
