הנדון: עדכוני אבטחת מידע לשרתי ה Windows - חודש יוני 2018

לידיעתכם,

החודש יצאו **11** עדכוני אבטחה.

להלן פירוט העדכונים לחודש זה :

On June 12, 2018, Microsoft is planning to release security updates affecting the following Microsoft products.

Product Family	Maximum Severity	Maximum Impact	Servicing Notes
All versions of Windows 10 and Windows Server 2016 (not including Microsoft Edge)	Critical	Remote Code Execution	Updates for Windows 10 and Windows Server 2016 will be cumulative and will include both security fixes and non-security updates. For more information, see the TechNet resource Update Windows 10 in the Enterprise . See also Changes to Office and Windows servicing and support .
Microsoft Edge	Critical	Remote Code Execution	Updates for Microsoft Edge are included in Windows 10 monthly rollups. We separate Edge out in this table to show vulnerability ratings for Edge apart from other Windows 10 components.
Windows 8.1 and Windows Server 2012 R2	Critical	Remote Code Execution	Updates for Windows 8.1 and Windows Server 2012 R2 will be offered via a single monthly rollup that addresses both security and reliability issues in a single update. A separate security-only rollup containing only security fixes for the month will also be available for

Product Family	Maximum Severity	Maximum Impact	Servicing Notes
			download on the Microsoft Update Catalog. For more details, see Simplified servicing for Windows 7 and Windows 8.1: the latest improvements .
Windows Server 2012	Critical	Remote Code Execution	Updates for Windows Server 2012 will be offered via a single monthly rollup that addresses both security and reliability issues in a single update. A separate security-only rollup containing only security fixes for the month will also be available for download on the Microsoft Update Catalog. For more details, see Simplified servicing for Windows 7 and Windows 8.1: the latest improvements .
Windows RT 8.1	Critical	Remote Code Execution	Updates for Windows RT 8.1 and Microsoft Office RT software are only available via Windows Update.
Windows 7 and Windows Server 2008 R2	Critical	Remote Code Execution	Updates for Windows 7 and Windows Server 2008 R2 will be offered via a single monthly rollup that addresses both security and reliability issues in a single update. A separate security-only rollup containing only security fixes for the month will also be available for download on the Microsoft Update Catalog. For more details, see Simplified servicing for Windows 7 and Windows 8.1: the latest improvements .
Windows Server 2008	Critical	Remote Code Execution	Updates for Windows Server 2008 are not offered in a cumulative update or rollup. Individual updates will be offered via Windows Update and the Microsoft Update Catalog.

Product Family	Maximum Severity	Maximum Impact	Servicing Notes
Internet Explorer	Critical	Remote Code Execution	The Security Only update for Windows 7, Windows Server 2008 R2, Windows Server 2012, Windows 8.1, and Windows Server 2012 R2 will not include security updates for Internet Explorer. These updates for IE will be offered as a separate package. For more details, see the blog post Simplified servicing for Windows 7 and Windows 8.1: the latest improvements .
Microsoft Office-related software	Important	Remote Code Execution	Updates for Office are offered through Microsoft Update and can also be downloaded separately. For information on updates for Microsoft Office, visit the Office Tech Center landing page for Office Downloads and Updates . See also Changes to Office and Windows servicing and support .
Microsoft SharePoint-related software	Important	Elevation of Privilege	Updates for Microsoft SharePoint are offered through Microsoft Update and can also be downloaded separately. For more information, see SharePoint Updates .
ChakraCore	Critical	Remote Code Execution	ChakraCore is the core part of Chakra, the high-performance JavaScript engine that powers Microsoft Edge and Windows applications written in HTML/CSS/JS. More information is available at https://github.com/Microsoft/ChakraCore/wiki .

יחידת ממשל זמין תחל בביצוע התקנות אבטחת מידע, **7 ימים** מפרסום הודעה זו.
במידה ולא תתקבל תגובה תוך פרק זמן זה, נעדכן את השרתים באופן עצמאי.

בכבוד רב,
