General Kramer, (מומלץ להוסיף בכתב יד – COSMO)

As I near the end of my term as the head of the training, evaluation and doctrine division of the IDF, I would like to extend my sincere gratitude for your continuous support and cooperation throughout the last year, since you assumed your position in EUCOM.

It was a true pleasure working with you and as I look back, proudly, at the past year, I am confident that our cooperation, discourse and guidance assisted our forces to enhance our joint contingency preparedness.

A thank you is owed the wonderful team at the J7, J5, J3 and the various components for their continuous support and agility, and a special shout out to Mr. Hooper who exemplifies the meaning of "JOINT EXERCISES".

As you move on to your new position in NATO JFC-Brunssom, please remember that you have an open invitation to visit Israel and the IDF - I would love to see you here in your NATO capacity!

All the best, my friend!

Toda (thank you) and Shalom!
