

- Today I came with a **good news**.
- The vaccine is **on his way** to Israel.
- Germany **ensure** Israel **will receive** Covid-19 vaccine

.....

# The EU **has an agreement to procure** vaccinations from eu medical company.

# Germany says **Israel is part of the EU** for this deal.

# The German government **has committed** to provide Israel Covid-19 vaccine **being developed** by UK-Swedish company (AZN).

# if it is **found to be safe** and **effectiv**.

# the Israeli Embassy in Germany **has declared**

The EU has signed an agreement with AZN company to reserve 400 million vaccinations.

# according to the Israeli Embassy in Berlin, Germany **will insist that** Israel, **will be considered** part of the EU.

# The **commitment was given** to Israeli Foreign Minister Gabi Ashkenazi and Israeli by German Foreign Minister and the German Health Minister .

# However, it is unclear how quickly such large amounts of the vaccine, **being developed** can be delivered.

# The Covid-19 vaccine is **currently in advanced** Phase III human trials.

.....

In summary

@ Germany **sees** Israel as part of Europe in terms of procuring the vaccine.

**@ This is not obvious.**

@ The deal is **part of Germany's 'special relationship'** with Israel

and

its **commitment** to Israel's safety and security.
