BACKGROUND

1. At the Enclosure, HQ SACT submitted the Military Training and Exercise Programme (MTEP) Open to Partners (OTP) and Non-NATO Entities (NNEs) portion that allows NATO to offer relevant collective training events and exercises to Partners and to assist them in selecting those that best support their individual programmes.

AIM

2. To seek NAC approval for Partners and NNEs to participate in, or observe NATO collective training events and exercises and their related planning activities as summarized in the OTP and NNE portion of the MTEP for 2019 – 2023.

CONSIDERATIONS

3. In line with Reference A, MC endorsement and NAC approval for Partners and NNEs to participate in, or observe, a NATO training event or exercise is required and summarized through submission of the OTP and NNE portion of the MTEP, which will occur annually and use the same five-year span as for Allies.

NATO UNCLASSIFIED

Releasable to PfP, MD, ICI, Afghanistan, Australia, Colombia, Iraq, Japan, Mongolia, New Zealand, Pakistan, Republic of Korea, UN, EEAS, AU, North Macedonia

4. In the context of the Partnership Interoperability Initiative (Reference B) and the Connected Forces Initiative, the MTEP OTP and NNE portion becomes a planning tool that provides visibility of the schedule and structure of NATO's exercise programme to Partners and NNEs, enabling their long-term planning.

5. The large number of military collective training events and exercises made available to Partners and NNEs cover a wide area of NATO training and exercise requirements. Partners and NNEs, in close coordination with NATO action authorities, should ensure that selection of NATO collective training events and exercises meets their own individual objectives with NATO as well as the objectives and priorities of NATO. Adaptations of the NATO training cycle, relevant to Partners and NNEs as well as changes with regard to Partner and NNEs eligibility, will be covered through the annual approval process of the MTEP OTP and NNE portion.

6. The MC recognises Partners' and NNE's need to plan in advance their involvement in NATO Exercises, as well as to mobilize the required resources. Therefore, the MC considers that the scope of approval of the OTP and NNEs portion will span the same five year cycle as the MTEP does for Allies. Adaptations of the NATO training cycle that are relevant to Partners and NNEs, as well as changed with regard to Partners and NNEs eligibility, will be covered through the annual approval process of the MTEP OTP and NNEs portion¹.

7. If there is a perception of political sensitivity, Allies retain the right to request a case-by-case MC endorsement and NAC approval of the linkages or the Exercise Specifications, including Partner participation in NATO collective training events and exercises. In such a case, upon an Ally notification, ACT² will notify the MC, in a written form about the envisioned Partner and NNEs participation in, or observation of, those events, as soon as the details are known, to allow Allies' timely consideration. The MC will be able to review its approval to "Open to All" NATO Collective Training Events and Exercises. ACT² will regularly provide updates³ to the MC on Partners and/or NNEs participation in, or observation of, events listed in MTEP-OTP 2019-2023. The eMTEP⁴ must be continuously updated to ensure full and timely visibility to Allies regarding Partner participation in NATO collective training and exercises.

8. The MC considers that certain NATO collective training events and exercises require additional scrutiny, once details regarding the intended Partner or NNE involvement are identified. This includes:

a. Article 5-related exercises, which may have political, operational and, in some cases, legal implications; therefore, Partners and NNEs participation in, or observation of, such events is subject to MC endorsement and NAC approval.

¹ Exercises that have been previously approved will again be subject to the approval process if there are changes to Partner and NNEs eligibility from previous approval cycles.

² ACO, after the transfer of exercise responsibility.

³ Detailed criteria to be provided in a separate document.

⁴ Electronic version of the MTEP, available for viewing on the UNCLASSIFIED network at the link: <https://emtep.exonaut.com/ExonautWeb.cal/>.

- b. Cyber Defence related exercises, where practical cooperation in the cyber domain is tailored to individual needs and circumstances of Partner Nations; therefore, Partners and NNEs participation in, or observation of, such events is subject to MC endorsement and NAC approval (Reference F, Annex 1, Paragraph 31).
 - c. New exercises, not covered by the current MTEP OTP and NNEs list at Enclosure 1, which will require separate MC endorsement and NAC approval, once the request for a Partner or NNE involvement is submitted.
 - d. Coalition Warrior Interoperability eXploration, eXperimentation, eXamination, eXercise (CWIX) meets a broad spectrum of technical interoperability validation and verification requirements. Partner and NNE participation in and observation of CWIX is therefore subject to meeting the minimum entry requirements, in accordance with the NATO CWIX Overarching Guidance.
 - e. In order to be eligible to participate in live exercises (LIVEX), Partners must either have forces participating in NATO-led operations or have forces declared in the Operational Capabilities Concept (OCC) Pool of Forces or the NATO Response Force. Prior to participating in NATO LIVEXs, Partner forces must undergo a Pre-Exercise Quality Threshold Evaluation process, tailored to the evaluation level achieved in OCC.
9. In order to avoid redundancy, the MC considers that additional approval processes for Partners already allowed to participate in NATO exercises should be avoided. In this respect, the MC considers that the following Partners groupings are granted full access to NATO collective training events and exercises (except Article 5 and Cyber Defence related):
- a. Operational Partners formally accepted by the NAC, in accordance with the procedures in References C and D, may participate in, or observe, NATO collective training events and exercises related to the Operation they are contributing to (Reference A).
 - b. Partners and other non-NATO Nations that have been formally accepted to the NATO Response Force (NRF) by the NAC, in accordance with the agreed Framework for Partner Involvement in the NRF, are authorised full participation to the NRF training cycle, including all planning and preparation events and activities (Reference A).
 - c. Enhanced Opportunity Partners, which should be granted enhanced opportunities by the NAC in all collective training events and exercises (except Article 5 and Cyber Defence related) and associated planning activities, to include pre-design and scenario design phases (Reference B).

CONCLUSIONS

10. In line with Reference A, the MC endorses Partners and NNEs participation in, or observation of, NATO collective training events and exercises and their related planning activities, through the submission of the OTP and NNE portion of the MTEP for 2019 – 2023, listed at the Enclosure.
11. For Exercises described at Paragraph 7, upon an Ally notification, ACT will notify the MC, in a written form, about the envisioned Partner and NNEs participation in, or observation of, those events, as soon as the details are known, to allow Allies' timely consideration. The MC will thus be able to review its approval to "Open to All" NATO Collective Training Events and Exercises.
12. The MC concludes that Partners' involvement in Exercises described at Paragraph 8 will require additional scrutiny, once the details regarding the intended Partner or NNE involvement are known.
13. In line with Paragraph 9, the MC concludes that Enhanced Opportunity Partners are granted full access to related NATO collective training events and exercises (except Article 5 and Cyber Defence related).
14. The MC concurs with ACT's General Guidelines and the technicalities defined within the Annex A to the Enclosure, which will need to be carefully considered before any Partners' involvement in NATO exercises.

RECOMMENDATIONS

15. The MC recommends that the Council:
 - a. Approves Partners' and NNEs' participation in, or observation of, NATO collective training events and exercises, and the related planning activities, as concluded in Paragraph 10.
 - b. Notes that Partners' involvement in the collective training events and exercises described at Paragraph 7 require MC notification as concluded in Paragraph 11.
 - c. Notes that Partners' and NNEs' involvement in Article 5 and Cyber Defence related NATO collective training events and exercises require additional scrutiny, once the details regarding the intended Partner or NNE involvement are identified, as concluded in Paragraph 12.
 - d. Approves that the participation in, or observation of, NATO collective training events and exercises (except Article 5, Cyber Defence related) by the Enhanced Opportunity Partners, is fully granted, as concluded in Paragraph 13.

- E. SACEUR's Annual Guidance on ETEE 2019, SH/PLANS/J7/PLL/KAM/17-317914, dated 23 Jul 17.

1. In accordance with Reference A, the Open to Partners and Non-NATO Entities (OTP & NNE) portion of the NATO Military Training and Exercise Programme (MTEP) 2019-2023 was forwarded (Reference B) for endorsement by the Military Committee and approval by the North Atlantic Council on 25 October 2018.

2. The purpose of the amendments contained within Annex A is to update the OTP & NNE portion of NATO Military Exercise Programme 2019-2023 to reflect the comments provided by the Nations regarding Partner and Non-NATO Entities participation in NATO Exercises (as per Reference C).

3. Annex A reflects the OTP & NNE portion of the MTEP 2019-2023, dated 08 September 2018 (Reference D) wherein the 2019 Exercise Programme is confirmed and the 2020-2023 Exercise Programmes are included as drafts until their confirmation in subsequent MTEP published annually.

4. Due to the transition from the Long Term Rotation Plan (LTRP) to the Long Term Commitment Plan (LTCP), and the forecasted adjustments to MTEP 2020-2024 programming efforts, in accordance with SAGE 20 (Reference E), significant changes are reflected in eMTEP that are not reflected in MTEP 2019-2023. The eMTEP is available for viewing on the unclassified network at the following link: <https://emtep.exonaut.com/ExonautWeb.cal/>. Exercise Programme changes occurring in 2020 and beyond will be reflected in MTEP 2020-2024 published in September 2019.
