יום ראשון 17 ספטמבר 2017

לכבוד,

לקוחות ממשל זמין

הנדון: עדכון תוכנות אבטחה לתאריך 11 ספטמבר 2017

לידיעתכם,

החודש יצאו 13 עדכוני אבטחה.

להלן פירוט העדכונים לחודש זה :

Product Family	Maximum Severity	Maximum Impact	Servicing Notes
Windows 10 and Windows Server 2016 (including Microsoft Edge)	Critical	Remote Code Execution	Updates for Windows 10 and Windows Server 2016 will be cumulative and will include both security fixes and non-security updates. For more information, see the TechNet resource Update Windows 10 in the Enterprise.
Windows 8.1 and Windows Server 2012 R2	Critical	Remote Code Execution	Updates for Windows 8.1 and Windows Server 2012 R2 will be offered via a single monthly rollup that addresses both security and reliability issues in a single update. A separate security-only rollup containing only security fixes for the month will also be available for download on the Microsoft Update Catalog. For more details, see Further simplifying servicing models for Windows 7 and Windows 8.1.
Windows Server 2012	Critical	Remote Code Execution	Updates for Windows Server 2012 will be offered via a single monthly rollup that addresses both security and reliability issues in a single update. A separate security-only rollup containing only security fixes for the month will also be available for download on the Microsoft Update Catalog.

Product Family	Maximum Severity	Maximum Impact	Servicing Notes
			For more details, see Further simplifying servicing models for Windows 7 and Windows 8.1.
Windows RT 8.1	Critical	Remote Code Execution	Updates for Windows RT 8.1 and Microsoft Office RT software are only available via Windows Update.
Windows 7 and Windows Server 2008 R2	Critical	Remote Code Execution	Updates for Windows 7 and Windows Server 2008 R2 will be offered via a single monthly rollup that addresses both security and reliability issues in a single update. A separate security-only rollup containing only security fixes for the month will also be available for download on the Microsoft Update Catalog. For more details, see Further simplifying servicing models for Windows 7 and Windows 8.1.
Windows Server 2008	Critical	Remote Code Execution	Updates for Windows Server 2008 are not offered in a cumulative update or rollup. Individual updates will be offered via Windows Update and the Microsoft Update Catalog.
Microsoft Office-related software	Critical	Remote Code Execution	Updates for Microsoft Office are offered through Microsoft Update and can also be downloaded separately. For information on updates for Office, visit the Office Tech Center landing page for Office Downloads and Updates.
Internet Explorer	Critical	Remote Code Execution	The Security Only update for Windows 7, Windows Server 2008 R2, Windows Server 2012, Windows 8.1, and Windows Server 2012 R2 will not include security updates for Internet Explorer. These updates for IE will be offered as a separate package. For more details, see the blog
