National Defense College
Israel Defense Forces

In the past few years, National Defense University of the People's Liberation Army China and National Defense College of Israel Defense Forces have developed mutual understanding and friendship through exchanges and cooperation in various fields and contributed greatly to the friendly bilateral ties of the two nations and two militaries.

We are glad to invite COL Eli Bar-On and his delegation group to pay a 7-day visit to China from 22 to 26 April, 2018 at their own expenses, and earnestly request a keynote speech by experts on current international and regional security situation, joint operation or any other topics of common concern.

We believe the visit will further the friendly and cooperative relations between two militaries and two universities.

Yours Sincerely.
