The course, which will be delivered in English, is designed for selected International officers, as well as a small number of officers from Hellenic Armed Forces. It aims at the preparation of students so they are able, in the performance of their duties as planners, Staff officers and Commanders in their countries, to cope with planning, coordinating and executing operational level joint operations.

To achieve the aim of the course we have planned a curriculum that will build on already existing knowledge and experience, but will be reinforced with theoretical based tools and procedures, military expertise coming from national and international background and practical exercise, through guided workshops.

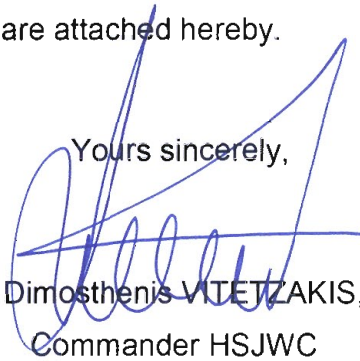

The students will develop their professional skills and expertise, by exposing themselves in operational planning principals and procedures like the analysis of Planning Categories, Levels and methods, Operational Design - Concept and Tools / Operational Art. Also, lectures will be given on Law of Armed

Conflict, STRATCOM, Media Ops and Public Affairs in the Operational Environment, Civil/Mil Co-ops in planning.

Most of all, the course will promote students' initiative, judgment, operational instinct and induce them in being unbiased, constructive teammates, and committed to the common objective of operational planning thus fostering, through understanding each other, long lasting friendship bonds that promote cooperation, security and stability. A course certificate will be granted to the students upon graduation.

Information documents to include, the training outline, the draft program of the course, administrative issues and the PAF, are attached hereby.

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'Dimosthenis Vitetzakis', is written over the typed name and title.
