

Lior Schillat is the director general of the Jerusalem Institute for Policy Research, a Jerusalem based think tank. He brings to this role over 15 years of experience in the public, political, and business sectors. Schillat began his professional path as the aide to the former Prime Minister Ariel Sharon and continued to become the director of the Department for Policy Implementation in the Prime Minister's Office. As the director of the Department, Schillat managed numerous large government projects including the first program for the development of Jerusalem and the program for the development Jerusalem's Old City and Historic Basin. Following his position in the Prime Minister's Office, Schillat filled numerous private and public roles in Israel, in the United States, and in Italy. Schillat holds a Bachelor's degree in Geography from the Hebrew University of Jerusalem. A joint Master's degree in Energy and Global Policies from the Sciences Po and the IFP Schools in Paris and a Master's in International Relations from the Fletcher School of Law and Diplomacy at Tufts University.

Jerusalem Institute for Policy Research

The Jerusalem Institute for Policy Research (formerly the Jerusalem Institute for Israel Studies) is the leading institute in Israel for the study of Jerusalem's complex reality and unique social fabric. Established in 1978, the Institute focuses on the unique challenges facing Jerusalem in our time and provides extensive, in-depth knowledge for policy makers, academia, and the general public.

The work of the Institute spans all aspects of the city: physical and urban planning, social and demographic issues, economic and environmental challenges, and questions arising from the geo-political status of Jerusalem. Its many years of multi-disciplinary work have afforded the Institute a unique perspective that allowed it to expand its research and address complex challenges confronting Israeli society in a comprehensive manner. These challenges include urban, social, and strategic issues; environmental and sustainability challenges; and innovation and financing.
