

SAVE THE DATE: 29.01.2020

Mad Scientist  Global Perspectives in the Operational Environment
A LIVE STREAMED EVENT

Conference Details

Join the Army's Mad Scientists and the International Army Programs Directorate (IAPD) and TRADOC Foreign Liaison Officers on 29 January 2020 for a virtual, live streamed event.

Explore the individual and convergent impacts of technological innovations on Multi-Domain Operations and the Operational Environment, from today through 2050. The conference will explore topic areas like artificial intelligence, autonomy, information warfare (deep fakes), cyber-attack and defense, economic warfare, competition, and conflict.

Acknowledged global experts will present, including renowned speakers from our partner nations.

Livestreaming on the 29th January at: www.tradoc.army.mil/watch

NO Military or DoD affiliation required!

Conference Classification: **UNCLASSIFIED**
