## **Evaluation of COL Shin Fong Teng**

COL Shin Fong Teng was an International Fellow in the 46<sup>th</sup> Class of the Israel National Defense College (2018-2019). He has completed all obligations and attained the title: *Israel National Defense College Graduate*. Additionally, COL Shin Fong Teng

Concluded all academic requirements and received an *MA in Political Science – National Security*, from The Haifa University. The subject of his final paper was: "Social Resilience – Comparisons between the State of Israel & Singapore".

COL Shin Fong Teng has proved to have been a valuable member of his class, characterized by his heightened curiousness and wisdom and constant readiness to expand his knowledge and perspectives. He has gained the respect and appreciation of both his fellow students, as well as that of the staff. His capacity for critical analysis brought about unique insights, particularly with regard to the comparison between the challenges to Israel's and Singapore's national security.

As the Commandant of the IDF Colleges, I feel we were privileged to have had such a student among us this year. His performance has served as a great credit not only to himself, but to that of his military and the Republic of Singapore which he so honorably represents.

I thanked COL Shin Fong Teng for his participation in the INDC program. I have no doubt that he will continue to succeed in his future assignments and I trust that the added values and perspectives that he gained at the INDC will contribute to his future successes.

Sincerely,
